# About Eccocar...

About

We work with

Team of engineers, data scientists and designers.

8+ years of experience, developing digital solutions in a range of sectors.

We want to clarify, through efficiency, the global transition towards sustainable mobility.

We believe, that sustainable mobility should be one of the fundamental principles in cities now a days.

Headquarters-Madrid, Spain.

# We work with

About

We work with

Steps

## **Rent-a-car fleets and dealers**

Localized cars,  
efficiency  
improvement and  
digitalization of their  
processes

## **Enterprise**

Optimizes the use of its  
car fleet, increasing its  
social responsibility.

**Public  
Organizations**  
More accessible  
and affordable  
mobility for more  
people.

O

**Optimize the use of your  
fleet, increase efficiency and  
streamline your process.**

# Steps

We work with

Steps

The platform

1

The client sends to eccocar the keys of the vehicles in order to do a pre-installation with our e-connect technology.

2

Once the devices are ready, we install them into the cars making them connected. Now the cars are ready to share with our *carsharing* technology.

3

We finally activate your platform so you can start **enjoying the most advanced shared car management solution in the market.**

# Steps

We work with

Steps

The platform

4

At the end of the pilot we prepare a totally free **report analysing the generated data during the project** in order to **validate the *carsharing* use of the connected cars.**

## Report index (Metrics analysed)

- Context
- Data sheet
- Use ratio
- Distance traveled
- Trips made
- Travel per user
- Vehicles used per day
- Energy consumption
- Conclusions
